Product display

1.Introduction

This machine can be heat sublimation transfer paper on polyester fabric.

Youtube video Link: <https://youtu.be/Z6yJkY37-5E>

2.Features

1.Drum surface with chrome plating, high hardness and good printing performance, wearable and stickiness-proof.

2.It adopts advanced oil-warming technology and liquid circular heat conduction, with even heating and high thermal conductivity.

3.Using new technology, import elements control, high accuracy.

4..Accurate heating, save space, safe and durable.

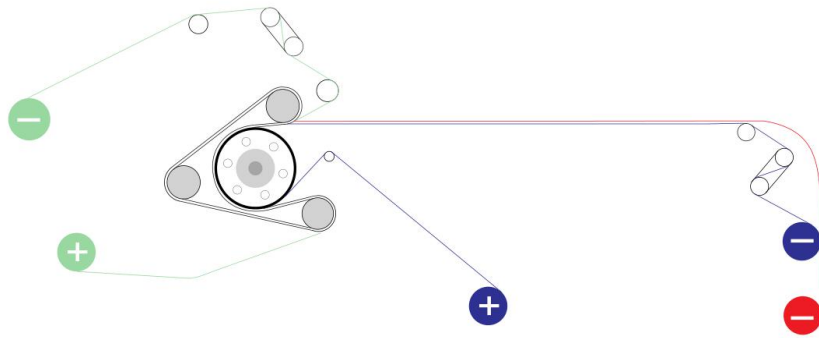

5.Heating wheel uses sealed conducting oil, it could be guaranteed. The temperature is more even and durable.

6.Can let the blanket to be automatic correction, ensure the normal orbit, make the efficiency of heat transfer enhancement and the transfer quality guaranteed.

3.Technical parameters

Item	210mm sublimacion calander
Roller width(m)	1.2
Roller diameter(mm)	210
Speed(m/h)	50m/hour
Weight(KG)	450KG
Packing size(CM)	204*100*155CM
Voltage(V)	220V/380V
Power(KW)	8
Recommend compressor	No Required
Worktable	Including
Blanket Perimeter(m)	1.7
MOQ	1 Set
Warranty	1 Year
Delivery Lead time	Shipped in 7-15 working days, depends on the order
Packing	Wooden Case

4.Working flow

● Protect Paper
 ● Fabric
 ● Sublimation Paper
 - Feeding
 + Take-up

Our factory

We look forward to cooperating with you
